PROFESSIONAL SUMMARY:

Computer Science And Engineering graduate (B.Tech, 2026) with hands-on experience in Python, Django, and full-stack web development. Built a fake news detection system using BERT-based deep learning and completed an 18-week AI/ML internship developing a healthcare application. Looking to bring my problem-solving and development skills to a Python Full Stack Developer role.

TECHNICAL SKILLS:

- **Programming Languages:** Python, JavaScript
 - **Frontend Technologies:** HTML5, CSS3, Bootstrap
 - **Backend Technologies:** Django
 - **Database:** OracleSQL
 - **Concepts:** Object-Oriented Programming (OOPs), REST API, SDLC, Data Preprocessing
 - **Python Libraries:** Numpy, Pandas, Matplotlib, Seaborn
 - **Tools:** GitHub, VS Code, Postman
 - **Technologies:** Machine Learning, Deep Learning
-

PROJECTS:

Detection and Classification of Fake News Using E-BERT(Major Project)

- Developed a fake news classification system using BERT embeddings with LSTM and GRU architectures for binary classification of real and fake news.
- Performed data preprocessing (text cleaning, tokenization, normalization) and BERT-based feature extraction; trained and evaluated LSTM/GRU classification models using Python, TensorFlow/Keras.
- Achieved 99.88% accuracy with BERT+LSTM and 99.91% accuracy with BERT+GRU on a dataset of 20,955 news articles, demonstrating high-performance fake news classification.

ShopSphere – E-Commerce Web Application

- Built a full-stack e-commerce web application using PHP, featuring user authentication, product management, shopping cart, and order processing.
 - Designed core modules including secure login, product catalog browsing, cart management, and order tracking to support multi-user workflows.
-

INTERNSHIP EXPERIENCE:

AI & Machine Learning Intern | Innovate by HexaInd

Dec 2025 – Apr 2026

- Completed an 18-week internship in Artificial Intelligence & Machine Learning.
 - Developed "Health Cure", an integrated machine learning solution for comprehensive medical care.
-

EDUCATION:

B.Tech (CSE), YSR Engineering College, YVU (2022–2026) – 79%

Intermediate (MPC), Seicom Junior College – 93%

SSC, ZP High School, Daminedu – 97%

CERTIFICATIONS: Machine Learning with Python, Artificial Intelligence & Machine Learning, CyberSecurity Fundamentals, NPTEL Cloud Computing

SOFT SKILLS: Communication, Problem-Solving, Leadership, Team Collaboration
